A Limited Edition Entry From The Master Of Fast, Affordable Fun

From the moment you ease into the contoured bucket seat of the Shelby CSX-T, you'll know you're about to crank the ignition on a whole 'nother kind of automobile. Exactly what kind of automobile it is becomes exceedingly clear when you take a look at the wheel.

It's signed by the hand of the master. Carroll Shelby. The name says it all. And the car backs it up. Designed by the legend in American muscle cars exclusively for Thrifty Car Rental, the 1988 Shelby CSX-T is a limited edition, power-packed, fun car that rips up the pavement without ripping up your budget. And because they're being handled by Thrifty, you can be sure that each of these low-mileage cars has been specially groomed and tuned to Shelby perfection.

With the Shelby CSX-T, you get a car that looks as good as it goes. On the outside, the custom graphics package and rear deck medallion immediately identify the car as a

collector's item. On the inside, an engraved dash plaque displays your car's individually assigned limited edition number.

On the civilized side, this beast pampers your sensibilities with a variety of special Shelby features. In addition to the signature, the sport steering wheel features a Shelby medallion horn button that sets the tone for the sleek grey cloth interior. Reclining bucket seats, tinted windows and 60/40 fold down rear seats give the CSX-T an added measure of comfort and convenience. And the AM stereo/FM stereo electronic radio with seek/scan, cassette tape player and four high fidelity speakers let you set your Shelby driving experience to your favorite music.

Power-Packed Engineering Guaranteed By Chrysler

Power hungry? This Shelby can satisfy your craving.

With a 2,600 lb. curb weight and a frisky Chrysler 2.2 liter Turbo I engine, the CSX-T takes you from zero-to-sixty in 7.8 seconds. Not bad for a car that also comes with the unbeatable Chrysler 7/70 limited warranty.

To help you keep tabs on performance, the CSX-T features a Shelby turbo boost gauge, an analogue tachometer and 125 mph speedometer as well as a computerized warning/"fail safe" system with instrument panel message center.

Reserve Your Shelby Road Rocket Today

A 1988 Shelby CSX-T road rocket at an affordable price? Sounds almost too good to be true. It almost is.

As anybody knows, this kind of fun—at this kind of price—doesn't last long. Thrifty only commissioned 1,000 of these affordable little beauties to be designed, signed and

individually numbered by Carroll Shelby. And this will be your only chance to purchase one that has the Chrysler 7/70 limited warranty.

And as an investment, it's hard to beat the Shelby track record. The last special edition Shelby rental, the 1966 GT350H, retailed for \$3,500. Today you might be able to pry one away from its owner for thirty grand.

So reserve your Shelby CSX-T today. Because once they're gone, you'll have to wrangle one away from your fellow Shelby enthusiasts. A much tougher proposition than ordering one from the nice folks at Thrifty.

The countdown is already under way.

So give Rich Little a buzz on the Shelby hotline—(918) 665-9365—or pop the enclosed reservation card in the mail today. And let us fire up a Shelby CSX-T Road Rocket for your launch pad.
